

LICENSES

Illinois Structural Engineer
Illinois Professional Engineer
Illinois Architect

CERTIFICATIONS

American Institute of Architects (AIA)
Registered Roof Consultant (RRC)
Certified Construction Specifier (CCS)
Construction Documents Technologist (CDT)
E.D.I. Inspector/Moisture Analyst
LEED 2.0 Accredited Professional

DEGREES

Civil Engineering
Architecture
Architectural Engineering
Structural Engineering

EXPERIENCE

100+ years professional
staff experience
1,200+ projects

History

In 1992, Donald Kimball founded Crest Consulting Engineers to provide structural engineering, architectural engineering and consulting services. Andrew Krauklis joined as a principal shortly thereafter. In 2003, David Nelson became the third principal bringing an architectural and interiors practice to the firm. The firm's name was changed to K2N Crest (two K's and an N) to reflect both the expanded new practice as well as the continuation of it's original practice. In 2006, longtime friend and associate Bill Early joined the firm bringing his well-established Roof Consulting practice to the fold.
